**Vesmont Announces TerraSol – An Earth and People Friendly Community**  
***One-of-a-kind lifestyle in Gwinnett with unsurpassed natural amenities***

ATLANTA –TerraSol, a distinctive eco-friendly community developed by Vesmont, LC, is located in Gwinnett County along the scenic Yellow River. The name TerraSol, derived from the Latin terms for “earth” and “sun,” suits this pristine community perfectly as more than 40 percent of the land at TerraSol remains in an untouched, natural state. Residents are given the opportunity to discover natural wonders on a nearly two mile long, all-natural mulch walking trail winding throughout the property and to explore history in a three acre archaeological site, also located within the community. TerraSol will offer 128 single family homes on generously-sized lots priced from the \$600,000s.

“We designed TerraSol to be a distinctive community, one that offers its residents a unique lifestyle in Gwinnett County with top-notch amenities, natural surroundings and great schools,” said Lawrence Kasmen, a Principal of Vesmont. “This community offers a tremendous amount of green space and undisturbed woodland areas, as well as the longest natural walking trail, the largest amenities package, and the most river frontage of any community in the area.”

TerraSol was developed with lifestyle and land use as top priorities. Homeowners will instantly appreciate the quiet, natural setting and enjoy an amenities package designed to encourage socializing and outdoor activities. More than 30 acres of preserved woodlands and green space offer homeowners private, wooded home sites, many of which border the Yellow River. For active lifestyles, an earth-friendly community activity center, free-form pool, play area, outdoor fire pit, amphitheater, four ALTA approved tennis courts and a nearly two mile hiking and walking trail exceed expectations.

Consistent with its mission to be an environmentally friendly development company, Vesmont will incorporate sustainable design principles, recycled materials and EarthCraft building methods into the construction of the amenity area and community activity center.

Children attend Gwin Oaks Elementary, Five Forks Middle and the very reputable Brookwood High School.

To visit TerraSol, take I-85 North to Indian Trail/Lilburn Exit 101. Turn right onto Indian Trail/Lilburn Road (which becomes Killian Hill Road) and travel approximately 6.6 miles. Turn left onto Five Forks Trickum Road. The entrance to the community will be one mile ahead on the right. For more information on TerraSol, call 404-841-8910 or logon to the Web site at [www.terrasolga.com](http://www.terrasolga.com).
